To Whom it May Concern

Steel Frame Construction Ltd have been using Rangehood Solutions for the supply and installation of Rangehoods for about 5 years.

Prior to this we were using another brand of rangehood and installing the rangehoods ourselves. During that time we had complaints about both the noise and efficiency of those rangehoods.

I can report since we have been using Rangehood Solutions for both supply and installation we have had no such complaints and our clients are very happy with the range of models now available to them.

The service provided is efficient and the tradesmen on site are well mannered and very tidy.

Yours faithfully

Steve Minto
